### ***CDSBEO Celebrates United Nations' World Teachers' Day***

Kemptville – October 5<sup>th</sup> is *The United Nations' World Teachers' Day* and the CDSBEO is once again thanking our teachers for their continued commitment to Catholic education.

“Professional Development to meet the needs of a changing world” is the theme of this years World Teachers' Day. This theme compliments the CDSBEO 2005-06 theme, “We are people of God – Transforming the World!”

Director of Education, Ann Perron said “As people who are privileged to work in education, we have great opportunities to transform others.

We all have crosses to bear – but we have God beside us. All of you will have the support of friends and colleagues to help you transform the world. Bringing hope to the lives of our students is a challenge we have met and will continue to meet for years to come.”

We believe our teachers at the Catholic District School Board of Eastern Ontario are transforming the world, one child at a time. In their chosen vocation as Catholic Educators, they nurture faith and understanding.

World Teachers' Day is an opportunity for teachers of all faiths and cultures to highlight the challenges they face, the importance of teacher training and to remind us that quality education requires quality teachers.

More than 100 countries take part in World Teachers' Day every year.
