Reconnecting and Engaging through  
Apprenticeship and Local Skills

**Dairy Herdsperson**  
**Equine Management**  
**Farm Equipment Mechanic**  
**Agriculture and Crop Sciences**  
**Oil and Gas Technician**  
**Welding and Fabrication**

Agri-Food Industry at Kemptville Campus

## How It Works

- Students may complete up to 4 high school credits in a full semester.
- Students will follow a maximum of two dynamic career paths in a semester. Each one begins with an orientation at Kemptville Campus conducted by college instructors.
- Each orientation may be followed by a work-specific placement in the chosen area.
- All credits will be administered by the home school.
- Transportation to Kemptville Campus for each session will be provided.

## How To Apply

- Complete the application form on the back of this brochure. Bring the completed application to the guidance department in your high school or to a Job Connect representative who will connect you to the most appropriate high school.
- Applicants will be invited to attend an orientation session at Kemptville Campus. Transportation to the campus will be provided for applicants submitting before the deadline.
- All applicants will be invited to a personal interview. Successful Applicants will be notified.

## Real Skills for Real Students

### Students Learn by Doing

#### Dairy Herdsperson

Introductory practical skills and safe procedures for milking and maintaining a dairy herd

#### Equine Management

Introductory knowledge and skills required to care for horses

#### Farm Equipment Mechanic (Heavy Equipment)

Introductory skills necessary to assist in maintaining farm equipment, heavy equipment, trucks and coaches

#### Oil and Gas Technician

Introductory skills and safety procedures for operating and maintaining oil and gas burning technology

#### Agriculture and Crop Sciences

Introductory knowledge and skills required for planning and maintaining crops, livestock and operating a successful farm

#### Welding and Fabrication

Introductory skills and knowledge in a wide range of safe welding and fabrication practices

## Admission Requirements

Students must be 16 years of age or older.  
Students under 18 require the signature of a parent or guardian.

# Learn by doing
