**School Operations  
Fundraising Policy**

## **POLICY STATEMENT**

The Catholic District School Board of Eastern Ontario recognizes that fundraising activities have the potential to enrich the experience of students and they can help to build a broader sense of community outside of school hours. To that end, a clear and transparent process for raising and spending funds shall be in place. The Board will ensure that all fundraising activities:

- comply with school board policies to help ensure that the activities are consistent with the purposes and principles of publicly funded Catholic education;
- are voluntary; no individuals should feel compelled to participate in any fundraising activity, nor should they be subject to penalties, or be denied any benefits, if they choose not to participate.
- Support student achievement and not detract from the learning environment;
- reflect advice from the school community; and
- support and protect staff and volunteers from legal liability through practices that promote accountability for the handling and management of the proceeds raised from these activities.

Date of Board Approval: May 7, 2013

Board Motion No. 13-05-147

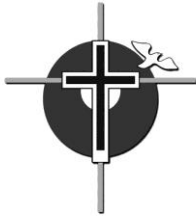

Date of Revision (Amendments)
