### ADMINISTRATIVE PROCEDURE

D1:5 Safety and Security – Occupational Health and Safety Volunteer Drivers Page 1 of 4

#### 1. Purpose:

To ensure safe student transportation for school activities. A school bus or public transportation will be used whenever possible.

#### 2. Procedure:

- Form, completed by insured volunteer driver older than 21 years of age, to be reviewed by Principal as per Board policy and procedures
- The completed form to be kept on file for the current school year

# 3. Requirements:

- To carry a minimum of \$1 million of liability insurance. If there is any doubt about the insurance coverage carried, or the use of the vehicle to transport students, volunteers should review their coverage with their insurance brokers.
- To not permit students to transport other students, or to act as 'trip drivers'.
- To not permit volunteer drivers under age 21 to transport students.
- Teachers or volunteers driving their personal vehicles to transport students to school activities must sign a Volunteer Driver Form which includes a declaration about proper licensing and insurance.
- Ontario Legislation makes Automobile Insurance compulsory in the Province of Ontario.
   This same Legislation makes the vehicle insurance primary coverage. In other words, the insurance on the vehicle responds to claims first.

The School Board's Liability Policy contains an Endorsement, called the Non-Owned Automobile Endorsement, which extends liability coverage to those who are using personal vehicles on the business of the Board. In accordance with Legislation, this coverage is <a href="mailto:excess">excess</a> to the insurance on the vehicle. For example, if an accident occurred while the vehicle was being operated on a school outing, and the vehicle was insured for \$1 million of liability insurance, and there was a successful suit against the owner of the vehicle for \$3 million, the Board's liability insurance would respond to the \$2 million in excess of the \$1 million carried by the owner.

There is no coverage under this Endorsement for damage to the vehicle itself. It is liability insurance only.

Passengers who are injured would recover Accident Benefits under their own automobile policies. Thus, students injured in an automobile accident, would report the injuries to their

parents' auto insurer. If there is no automobile insurance policy in the family, the injured passenger would collect benefits under the liability policy in place on the vehicle in which they were riding at the time of the accident.

Student passengers must provide informed consent to ride by parent
