<u>Aim</u>

This multi-year Accessibility Plan is developed in accordance with the Integration Accessibility Standards Regulation under the *Accessibility for Ontarians with Disabilities Act, 2005.* It incorporates the intentions of the Board to meet its obligations under the *Ontarians with Disabilities Act, 2001.* The Plan describes the measures that the Board has taken to date to identify, remove and prevent barriers to people with disabilities who work, learn and participate in the School Board community and environment including students, staff, parents and guardians, volunteers and visitors to the Board and its schools. The plan will be guided by the Board's Accessibility Standards-Policy Statement and will be used as a foundation in moving forward.

1.0 Objectives

This Plan:

- **1.1** Describes the process by which the CDSBEO will identify, remove and prevent barriers;
- **1.2** Reviews recent efforts of the CDSBEO to remove and prevent barriers;
- **1.3** Describes the measures the CDSBEO will take in 2022 to identify, remove and prevent barriers;
- **1.4** Makes a commitment to review and update the multi-year accessibility plan annually;
- **1.5** Describes how the CDSBEO will make this accessibility plan available to the public.

2.0 <u>Commitment to Accessibility Planning</u>

The CDSBEO is committed to:

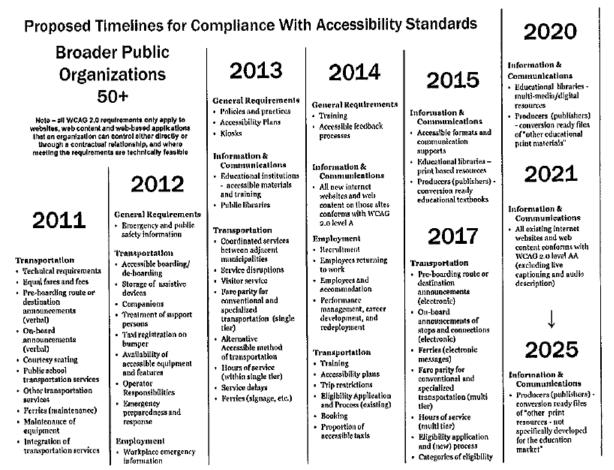

- **2.1** Maintaining an Accessibility Planning Committee;
- **2.2** Continuing the process of consulting with the Special Education Advisory Committee and with persons with disabilities;
- **2.3** Ensuring, wherever practical, that Board policies, procedures and practices are consistent with the principles of accessibility and inclusive/universal design. The Accessibility Planning Committee will provide input re: accessibility issues, where appropriate, with regard to new policies and procedures and to those under review;
- **2.4** Improving access to facilities, policies, programs, practices and services for students, staff, parents/guardians, volunteers and members of the

community. Consideration of ongoing identification of barriers will be the responsibility of the Accessibility Planning Committee and will, wherever practical, be incorporated in the multi-year plan.

4.0 <u>Timelines for Compliance with Accessibility Standards</u>

5.0 Strategy for Prevention and Removal of Barriers

The principles of inclusionary practice, freedom from barriers and accessible environments have informed all CDSBEO Board policies, programs, procedures and services. Through the annual accessibility plan status report process implemented under the *Ontarians with Disabilities Act, 2001*, the CDSBEO's programming, policies and practices have been assessed to ensure continuous improvement in accessibility. This process will continue through the establishment of a multi-year accessibility plan which places particular emphasis on the provisions of the regulations made under the AODA with regard to customer service, information and communications, employment and school transportation.

6.0 **Barrier Identification Methodologies**

A variety of accessibility initiatives continue to be addressed through various departments including: Human Resources, Plant and Maintenance,

Curriculum, Special Education, Information Technology, and the Student Transportation of Eastern Ontario (STEO).

The Accessibility Planning Committee uses the following methods to identify barriers to accessibility:

Feedback

The Board welcomes feedback by email and telephone. As well, Principals have been encouraged to inform their Superintendent of any issues or concerns that may arise. These concerns are brought to the attention of the Accessibility Planning Committee. As well, the Board's Special Education Advisory Committee (SEAC) provides input, as do the Catholic school councils.

Staff Training

Customer Service training is mandatory for all employees upon hire and will be reviewed every 5 years.

Continuous Review of Standards

The Accessibility Planning Committee is kept abreast of all regulatory requirements by attending conferences and reviewing information as it becomes available. The Accessibility Planning Committee makes use of the resources provided by the Ministry of Education and the Ontario Education Services Corporation.

Collaboration with Plant and Maintenance and Special Education

The Accessibility Planning Committee collaborates with the Plant and Maintenance and Special Education departments to identify and select accessibility projects. As often as possible, projects are planned in conjunction with other projects in order to save on costs and capitalize on existing manpower.

7.0 Barrier Removal Achievements

The annual Multi-Year Accessibility Plan, developed in accordance with the Ontarians with Disability Act (ODA) identifies a range of barriers and appropriate strategies for their removal. The completed projects to date are listed below:

* In order for the Catholic District School Board to further its commitment to students and staff with disabilities and to ensure compliance with the Accessibility for Ontarians with Disabilities Act (AODA), 2005, the Board initiated an Accessibility Audit Project during the 2014-15 school year. The project involved auditing 43 school facilities and spaces to identify where barriers may exist in the school environment.

The project was awarded to The Harrington Group Ltd (THG) and a final report was prepared, dated November 23, 2015. Since 2003, THG has conducted accessibility audits of over 800 buildings province- wide, assessing over 20 million square feet of facility spaces. THG has extensive experience in planning, executing and reporting accessibility audits of a variety of facilities and spaces, with a solid track record in the education sector.

The report provides a detailed reference tool to the CDSBEO for planning "access improvement" initiatives. Results are presented in a chart form for each facility to allow for review by the respective departments. The chart provides all necessary information, in a succinct format, relating to why the barrier exists and how it can be removed. Recommendations are ranked according to four priority levels:

- Priority 1 Immediate action recommended
- Priority 2 Short-term action recommended (within 2 years)
- Priority 3 Mid-term action recommended (3-5 years), and
- Priority 4 Long-term action recommended (6-10 years)

Priority rankings were determined by Board staff in the Request for Proposal (RFP) process. The Board will plan implementation in a feasible manner to its operations, immediate needs and funding capabilities. The report will be used as a guide for each facility in determining any available resources to be allocated to improved accessibility at CDSBEO facilities. It is important to note that the detailed report included cost estimates for all four priority levels in excess of ten million dollars for which the Board has a very limited funding source. It is, however, the plan of the CDSBEO to make reasonable efforts, annually, to address some improvements in accessibility across the board's wide jurisdiction.

7.2 Information and Communications – Board-wide – School Libraries

Typically, photocopiers scan documents in a standard PDF format which cannot be read with traditional software readers. In order to overcome this barrier, future contracts for CDSBEO photocopiers will include a requirement that they be equipped with Optical Character Recognition (OCR) software to create scanned documents that are accessible to all students using their technology of choice, such as ReadWrite or Cortana. Effective September 2020, all CDSBEO photocopiers at all locations have OCR capabilities. In addition, OCR capabilities are embedded in the Office Lens app to provide students an additional tool to scan documents on the go.

Further, all CDSBEO staff and students have access to the online OverDrive library. They gain access to this through their "MyCDSBEO" portal on the computer or by using the Sora, by OverDrive app on their phone/tablet. This online library includes accessibility options such as some audio books, and the ability to change font size as well as the colour of the background they are reading on. Another tool we use, EPIC Books, contains video clips, audio books and regular books. Arrow is a library option used by CDSBEO Low Vision and Deaf and Hard of Hearing students on a regular basis. Zoomtext is a magnification software that is installed on the laptops of all Low Vision students to allow them to magnify their work area and thus read any text on their screen. It can also be used to magnify images in books and websites. Brail texts are made available upon request. CDSBEO Staff strive to find the resources and technology that best suits the needs of each individual student.

CDSBEO internet websites and web content has been updated to meet the new accessibility requirements and the 2021 WCAG 2.0 level AA standard. A new CDSBEO website template was implemented in January 2021, and includes considerations for all elements of the level AA requirements, text enhancement features, as well as descriptive text for images. The board uses SiteImprove, an online tool which evaluates website content and assesses for any non-compliance, based on level A, AA, or AAA. The tool also offers accessibility training modules for site administrators to support the maintenance of accessible website content.

8.0 Barriers to be addressed under the Multi-Year Accessibility Plan

The Integrated Accessibility Standards Regulation 191/11 filed in June 2011 pursuant to the Accessibility for Ontarians with Disabilities Act, 2005 identified specific requirements to achieve accessibility in the areas of:

- Information and Communications
- Employment
- Transportation

These requirements build on the Accessibility Standards for Customer Service which came into force in 2007.

The CDSBEO intends, through this Multi-year Accessibility Plan, to take action to address barriers to accessibility related to the Standards areas of current Regulations. This is in addition to ongoing work the Board is undertaking with regards to identification and removal of barriers in the Board's physical environment.

9.0 Employee Workplace Emergency Response Plan

The Board has created Employee & Student Workplace Emergency Response Plans which are provided to schools annually, to identify the accommodations required during an emergency/evacuation.

10.0 Review and Monitoring Process

The Accessibility Planning Committee will meet annually to review progress and evaluate the effectiveness of implementation of barrier-removal and prevention strategies and to plan for increased accessibility throughout the Board.

The Accessibility Planning Committee will ensure that at least once every 5 years the plan is reviewed and updated in consultation with persons with disabilities, with the Board's Special Education Advisory Committee and other relevant committees.

11.0 Information and Communications

CDSBEO has upgraded all school websites to the AODA compliant Edlio platform. School teams have received training on how to use this platform, as well as information on ensuring that all pdf files posted to school websites meet accessibility standards. The Board is moving forward with plans to migrate the current GO intranet SharePoint site to Office 365, which provides a more compliant environment, and which is continually updated by Microsoft for AODA requirements. The CDSBEO website is currently being upgraded to a new version of WordPress on a new template which is completely AODA compliant to level AA (completion date – March 31, 2021). Additionally, all website pdf files are being upgraded to ensure that they meet standards for the Level AA 2021 AODA compliance expectations. This project is ongoing with a completion date for existing files of August 31, 2021.

CDSBEO has delivered modern Windows 10 laptops for teaching and learning and all CDSBEO devices leverage Microsoft Office 365. Products on

these platforms have countless accessibility features and CDSBEO is leveraging most of these technologies for student learning. All CDSBEO employees can also leverage these accessibility features as they are equipped with identical devices as teachers and students. Microsoft's vision is to empower every person and every organization on the planet to achieve more. Below is a list of links with detail information on accessibility features available on Windows 10 and Office 365 organized by type.
