

LITERACY

GRADE 4-6

LEARN AT HOME

DAY 1

READING

Ask a friend to write you a letter. Once you receive it, make personal connections to what your friend has been doing.

WRITING

Write a letter to a friend you have not been able to visit with lately. Use words that create specific effects through sound. Have your child mail the letter. Everyone enjoys getting mail!

DAY 2

READING

Make a few customized bingo cards with nature words. Head outside and play bingo!

WRITING

It's spring! Head outside and make a list of 20 spring-related objects you see (for example: robins, tulip sprouts.). Classify these words in groups (for example: animals, plants, weather) and write a conclusion based on the most common group of objects you saw.

DAY 3

READING

Make a list of game rules for a new game using recycled objects or nature items.

WRITING

Prepare a grocery list or a dinner menu for your meal and make decorations (for example: personalized paper placements). Write a review of your meal and make it a positive review by using unusual and fancy adjectives.

DAY 4

READING

Read the summary of two or three movies and, as a family, pick one film to watch. Next, prepare a list of your family's favorite snacks. Read the list of snacks to your family and take orders.

WRITING

Create a movie night for your family. Prepare movie posters, snack board and photo booth.

DAY 5

READING

Find a favourite recipe. Read the recipe aloud and try to solve the meaning of unfamiliar words (for example: fold, marinate, mince) using different types of cues. Under the supervision of an adult, follow the recipe's directions to make a treat or snack for your dinner party.

WRITING

Prepare a grocery list or a dinner menu for your meal and make decorations (for example: personalized paper placements). Write a review of your meal and make it a positive review by using unusual and fancy adjectives.
