Parent Engagement Matters

A message from the Council of Ontario Directors of Education

When students understand mathematics, they are equipped with knowledge they can bring to every aspect of their lives. **Inspiring Your Child to Learn and Love Math** is a tool kit for parents. It provides modules with simple, but effective methods and materials for parents. It shows you how to get involved in your children's learning, and offers guidance for working with students of different ages.

This **Parent Tool Kit** was developed by experts in mathematics education, with input and advice from parents and students. When families and educators join forces, students of all ages can experience greater success in their learning.

Take the time to view or download the videos and documentation that applies to the age group you are interested in. Share with colleagues, friends and family. If you are preparing a parent engagement workshop, you will find everything you need right here!

Game-Based Learning

TVO mPower helps boost K-6 math skills!

Explore some of our games

Over, Under, In Between (Kindergarten)

Find missing objects at the park with help from a few friends! Is the water bottle under the bridge? Use the positional language in the clues to locate the objects.

Skill: Spatial Reasoning

Geo Tundra Trek (Grade 2)

Bundle up, Geo Adventurer! Identify and sort shapes for the hungry polar bear and the hopping arctic hare. Create shapes on the geoboard for the snuffling caribou.

Skills: Shapes, Sorting, Spatial Reasoning

Polar Pictures (Grade 4)

Join the photo expedition! Pack supplies, deliver cargo, and snap photos. Represent, compare and order fractions to have your photographs featured in publications!

Skills: Equality, Number, Sorting, Spatial Reasoning

Parent Resource

Family Literacy

Taking time every day to read
or do a learning activity with
children is crucial to a child's
development.

FAMILY LITERACY DAY

Inspiring Families to Learn Together

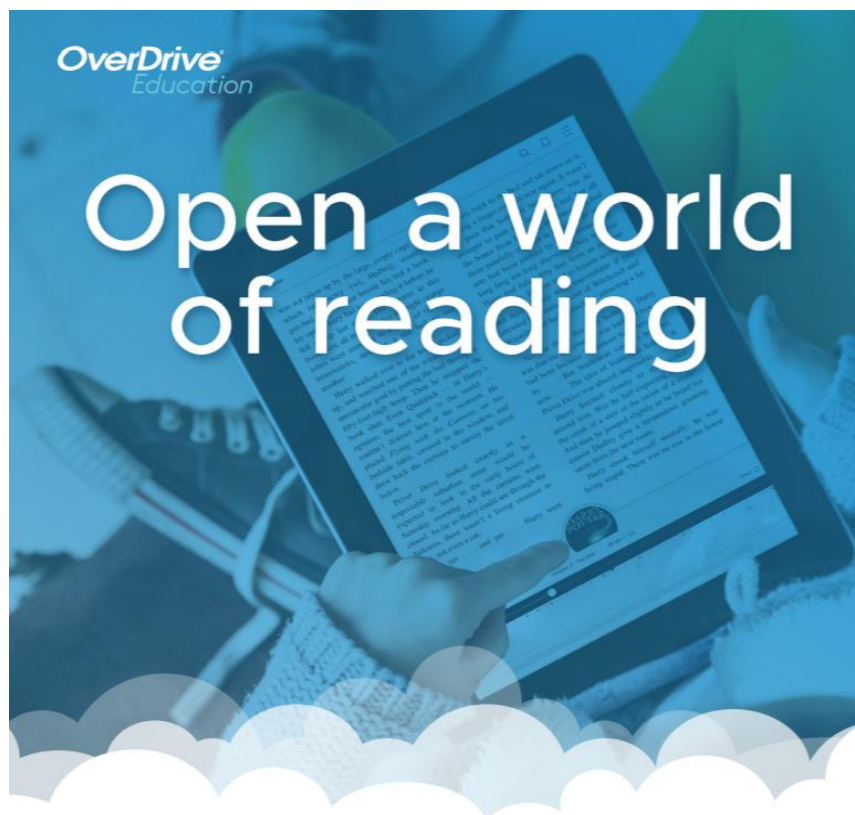

Family literacy programs focus on parents as the means to improve the reading and writing skills of all family members. By reading to children and engaging in fun literacy activities, parents are actively keeping their own skills sharp while at the same time strengthening the relationship between the family which, in turn, encourages lifelong learning. Read the [family literacy fact sheet](#).
