

# LITERACY

KINDERGARTEN -  
GRADE 3

## LEARN AT HOME

## DAY 1

### READING

Beat boredom with a board game! Break out some family favourites such as Candyland, Snakes and Ladders or Operation.

### WRITING

Using sidewalk chalk, write out the letters of the Alphabet in random order all over your driveway. Challenge your child to find letters out of order or even spell words by running to the correct letters, one at a time.

## DAY 2

### READING

As a family, go on an outdoor literacy walk. Pick a theme or subject (ie: "Signs of Spring", looking for items that start with a chosen letter, etc.).

### WRITING

When you return from your literacy walk, write about your experience! What did you see? What surprised you? What fascinated you?

## DAY 3

### READING

Make a list of items to find for an indoor scavenger hunt! Putting a picture beside each item can help early readers understand what items to find.

### WRITING

Create a scrapbook to highlight all of your activities and adventures while learning from home. Include news articles, pictures, special memories and more. This will be a nice memento to look back on.

## DAY 4

### READING

Together, read a story. Afterwards, assign all family members roles and act out the story. Dress up in costumes, use silly voices and have fun!

### WRITING

Use found objects to write out words. You can use items in the house such as pipe cleaners, markers, or boxes, or you can go outside and use items found in nature such as flowers, sticks and grass.

## DAY 5

### READING

Find an article on CBC Kids News and read it together. What did you learn? What else do you want to know?

### WRITING

Write a letter to the author of the article. Comment on what you liked about their writing and ask any questions that you still have.
